# Plant Phenomics

Science Partner Journal (SPJ) *Plant Phenomics*, an official journal of **Nanjing Agricultural University (NAU)** and open access journal published and distributed by the **American Association for the Advancement of Science (AAAS)**, is now open for submissions.

*Plant Phenomics* will publish novel research that can advance all aspects of plant phenotyping in whole plant or cellular levels through novel mathematical and computational technologies in phenotypic data analyses. *Plant Phenomics* will provide a multidisciplinary forum to connect phenomics to other research domains, such as genomics, genetics, and physiology, and to address key scientific challenges in the areas of plant phenomics to advance plant sciences and agriculture. The journal will also publish new applications of phenomics in crop cultivation, plant breeding, and agriculture.

## Submit your research today!

The Science Partner Journals (SPJ) program established by the American Association for the Advancement of Science (AAAS), the nonprofit publisher of the *Science* family of journals. The SPJ program features high-quality, online-only, open-access publications produced in collaboration with international research institutions, foundations, funders, and societies. Through these collaborations, AAAS expands its efforts to communicate science broadly and for the benefit of all people by providing top-tier international research organizations with the technology, visibility, and publishing expertise that AAAS is uniquely positioned to offer as the world's largest general science membership society.
